SUBJECT.

Levy of fees for removal of earth at Davane per Municipality

W D 88—GPB—50,000—24-7-16

Received

Memo.

(1) Free ground south to be taken, purpose of Dawaniec

The President of the Municipality in his letter No 6479 82.09 requested the Sanction of Govt to set aside the resolution of the Municipal Board Dawaniec proposing the free ground south for building purposes from a site 30 yards from the tank bund

(2) Thereupon he was requested in this office docket No 11058 of 22.12.09 to state

(1) whether any fee is collected and if so at what rate

2) how long has this practice been in existence?

and 3) what is it necessary to abandon it now?

The President in reply stated in his No 895-B 30 & 01 under reference that till May 1899, a license fee of 1½ annas was being levied for the removal of earth required for making roads, tennis or lawn courts, or bungalow sites on the Red Sugar Bath in Dawangere, that latterly it was raised to 4 annas per ~~1000~~ 1000 and the use in lieu permitted to be drawn privately from the bed of the tank instead of from the old Bagarhalle road as in place. He says he sees no objection to approve of the Board's proposal to grant earth free and says that it may be set aside until the present practice ceases to continue.

On a proposal received from the Amildar of Davangere to the effect that earth for making bricks may be allowed to be removed from a site near Begarhatti on payment of a fee, Mr Coar Mr N. S. Narayana Rao declined to give permission to excavate earth from the

the said Ochre Lick permitted the manufacture of bricks in the bed of the tank on payment of a fee. The Municipal Bd of Dewangere was not willing to levy a fee for bricks prepared in the bed of the tank on the ground that the earth therein was not good enough for making bricks. Nevertheless the Dy Comr imposed a fee. Again the Dy Comr of Shimoga on the 24th March '98 ordered that earth from the tank bed might be taken free until further orders & levied a fee of 1/4 as for 1000 bricks prepared in the Begarhalli tank bed. In his order dated 27th April '98, the Dy Comr reduced the fee of 1/4 as to 2 as. This order appears to have been in force till 1910 when the Begarhalli tank bed was closed and a fee of 1/4 as per 1000 bricks was ordered to be levied on earth taken from the tank bed

the tank as well as the Bonda situated in the extension.

The fees realized are is insignificant, being Rs 14-3-6 per annum & no sufficient reasons are assigned by ~~the Dy Commr for orders, the Board as to whether the resolution may be set aside as recommended by the President.~~

Dy Commr 20/11/10 the Deputy Commr to set aside the resolution of the Board. The opinion of the present Dy Commr may be obtained before final orders are passed in the matter.

With docket No 11058
L.F 44-900
dated 22nd February 1901 enquiring whether any fee is now collected for the grant of earth required for building purposes in Davangere town and if so, at what rate.

In reply, has the honor to state that till May 1899 a license fee of 2 annas was being levied for the removal of earth required for making 1000 'kentis' or sun-burnt bricks near the old Begar katti in Davangere. Latterly it was raised to 4 annas per 1000 and the earth required for the purpose was permitted to be dug and removed solely

solely from the bed of the tank instead of from the old Begar hatti or any other place. But now the Board propose that the above system be abandoned and the earth required for building purposes be granted free of cost. The undersigned does not, however, approve of the Board's proposal and he consequently begs that it may kindly be set aside and the present practice allowed to continue.

Bangalore—

Sir,

With reference to your docket-
No. 1993 dated 1st August 1901
& 7444-1900
requesting the submission of
a statement shewing the re-
ceipts from house fees on
earth removed for building
purposes in Davangere for the
past 5 years I have the honor
to submit the statement referred
to and to state that on a proposal
received

Davangere to the effect that earth for making bricks may be allowed to be removed from a site near Begarhath on payment of a fee, the Deputy Commissioner Mr. M. S. Narayan Rao declined to give permission to excavate earth from the said site, but was inclined to permit the manufacture of bricks in the bed of the tank on payment of a fee (Vide his order No. 691 dated 7th February 1898). The Municipal members thereupon proposed that the earth in the bed of the tank was not good enough for bricks and that therefore it might be allowed to be taken free of charge, while the earth from the site near Begarhath, which was of a better kind might be taken on payment of a fee of 2 annas per 100 bricks manufactured.

2. In his order No. 762 dated 2nd March 1898, the Deputy Commissioner

Sooren intended the excavation
of earth at the Begarhatti site
and directed that earth for
bricks might be taken from the
tank bed on payment. This order
was modified by the one issued
on the 24th March 1898 to the effect
that earth from the tank bed
might be taken free of charge
until further orders and that
persons taking earth from the
Begarhatti site should pay at
the rate of 4 annas per 1000 bricks.
This rate was again reduced to
2 annas by order no 967 dated the
30th April 1898.

3 From the Circle's report
No. 487 dated 10th April 1901, it
would appear that the above
order was cancelled by Mr. Narayan
Rao in the year 1900, since when
the Begarhatti site was altogether
excluded from the operation of
brick manufacture, and a fee
of 4 annas per 1000 bricks was
ordered to be levied on earth taken
from the bed of the tank as well
as the Honda situated in the
extension

this fee, the Municipal members passed a resolution in Jan^{y} 1901 which the Deputy Commissioner did not approve and which forms the subject of the correspondence under reference.
